Fatigue Design 2019, oncoming high scientific level, 300 delegates

The 8th Fatigue Design 2019 conference aims to present the most innovative approaches and scientific progress in design methodologies, tools, and equipment's life extension, focusing on industrial applications. After the success in 2015 & 2017 to dedicate the conference to the scientific community from a specific country (USA and Italy respectively), it has been decided to renew the challenge for 2019. In respect to Japanese advance research works in the area of fatigue and fracture mechanics in the last years, it has been proposed Japan as the « partner country » for Fatigue design 2019 conference.

Some words regarding Fatigue Design 2017

The 7th edition of the International Conference of Fatigue Design was held on 29 and 30 November 2017 with the participation of over 318 delegates with 74% industrials. It was an opportunity for Cetim to gather experts from academia and industry to promote the most innovative approaches, scientific and technological progress in design methodologies, testing methods and tools to evaluate and extend the fatigue life time of the industrial equipment. It is a great success for Cetim which brought together more than 83 speakers from 20 countries from Europe, North and South America, the Middle East, Asia and Africa. According to speakers and delegates, the scientific and organizational progresses have still

been achieved during this 7th edition of the conference. The papers are published online on ScienceDirect and then 10 papers have been selected for publication in a special issue of International Journal of Fatigue. Since 2005, and every two years, the conference takes place at Senlis, the Royal City, located at 45km from Paris with more than 2000 years of history. The Notre-Dame Cathedral of 12th century, Saint-Pierre church, Medieval ramparts of 13th – 16th century, the château royal and 4 museums are among the most attractive places to be visited.

Major topics

The 8th edition of the Fatigue Design International conference will be organized by Cetim and its partners on 20 & 21, November 2019 at Senlis, France in close collaboration with Elsevier editor for the proceedings publication through Elsevier Procedia. The papers are published online on ScienceDirect, which makes available worldwide for a better dissemination and maximum exposure. In this respect the selection and peer review of the papers have been done in collaboration with the International Scientific and Organizing Committees. For this edition, a special focus is made on the relation between additive manufacturing and fatigue.

The presentations will focus on the latest development and most recent experimental, numerical simulation techniques and the associated engineering tools applied to the large domain of the industrial applications.

« Fatigue Design » became the reference conference to address the concerns of industrials on fatigue design of structures and components. It is also considered as the trade crossroads between industry and academia: 90 oral presentations were performed with 50% by industry.

Benefits of Sponsorship

The Sponsors will have several benefits through this strategic investment:

- to improve the visibility and reputation of the sponsor within industrial and academic delegates,
- to contribute to the success of high level International Conference dealing with fatigue design and testing,
- to have access to high level researchers and the decisions makers,
- to promote the sponsor products and services through the conference web site (sponsor logo)
- one or two pages product document to be inserted into the conference bag
- your logo, your website link and a short text on www.fatiguedesign.org
- your logo on Abstract Book, Congress Kakemono and Program

	Bronze 2 500 €	Silver 3 000 €	Gold 4 000 €	Platinum 5 500 €
Verbal announcement during the opening and closing sessions	✓	✓		✓
1 conference registration with gala dinner and 1 gala dinner invitation for sponsor guest	✓	✓		
1 advertisement page in the abstract book		✓ (inside back cover)	✓ (inside front cover)	
Verbal announcement during the opening and closing sessions and Social events			✓	✓
Your logo on social events invitation and menu			✓	✓
2 conference registrations with gala dinners and 2 gala dinner invitations included for sponsor guest			✓	✓
Demonstration of your product (on your stand or a meeting room at your disposal)				✓

Sponsorship reservation form

To do the reservation, please complete the following form and send it to fatiguedesign@cetim.fr

I undersigned hereby certify, (surname, first name and position)

.....

.....

Acting on behalf of (company name)

.....

Confirm my support of sponsorship for « Fatigue Design 2019, the International conference on fatigue design and testing ».

Address

Zip code

City

Country

E-mail

Phone / Mobil phone

Please choose one of these sponsorship solutions:

- Bronze - 2 500 €
- Silver - 3 000 €
- Gold - 4 000 €
- Platinum - 5 500 €

(*) The rate includes VAT / TVA : 20%

Payment must be made to the order of the Cetim

by bank check

by bank wire transfer

Please mention the invoice, customer member and « Fatigue Design » on your transfer order
